

# JEEVAN SUVARNA

jeevansuvarna71@gmail.com | +91 8495002321 | [www.github.com/jeevansuvarna](https://www.github.com/jeevansuvarna)

Software Developer with 2.5+ years of experience in implementing, designing and maintaining application. Looking for a challenging position to leverage my skills in Full Stack Development.

## EXPERIENCES

**SDE - I | Clover Bay technologies PVT LTD, Bengaluru | August 2021 – present**

### **SIM Mobile App**

- Established and uphold a resilient Back end for Front- End layer to power a high-performance application, effectively managing user data across **21 countries** using Nodejs and Fastify to optimise server-side processing, resulting in unparalleled user's responsiveness.
- Transformed large data from CMS to simplified version to make Front End faster.
- Conducted code reviews, identified areas for improvement and implemented best practice to enhance code quality and maintainability.

### **Beauty Product Web Application**

- Developed a user-friendly feature for a beauty product platform, introducing a **points system** linked to the purchases. Using Vue , ensuring smooth and responsive experience. Users can redeem points for vouchers and products, leading to increase engagement by collaborating with back-end developers and using agile methods. Developed a logic to maintain the points available to the user.
- Redeveloped an existing 3-Step checkout flow to a single page checkout, where user is able to make purchase in a single page without routing to different pages and make their payment journey simple and easier.
- Developed a feature where user can buy free sample products based on the products in their cart and came up with logic to remove sample product once the criteria fails when user remove item from cart.
- Redesigned PLP which would help user discover products of different PLP's. Also, the user can attempt some quizzes so that the user gets the appropriate products.

### **Themed Web sites**

- Led a team of 4 and devised a personalised web theme using Vue, not only enhancing the website's visual appeal but also ensuring effortless customisation via a platform application.

### **VTEX- admin app**

- Developed an efficient admin application utilising React and a bit of GraphQL with strong emphasis on delivering seamless uses experience.

## EDUCATION

### **B.E in Information Science & Engineering | 2017-21 | NMAM Institute Of Technology, Nitte**

- Maintained a CGPA of 9.3 / 10.
- Distinguished member of Technical Committee
- Organized a successful event with 200+ participant during college fest.

## SKILLS

- **Programming & Markup Languages** – JavaScript, Typescript, HTML/CSS, C, C++, Java and Python
- **Libraries & Frameworks**- Nodejs, React, Vue, Next.js and Fastify.
- **Platform & Tools** - Jira, git and Docker(basic).
- **Databases** – Mongo DB & MySQL.

## SELECTED PROJECTS

### **Portfolio website**

- My portfolio website built using Next.js and Tail wind.

Live Link: <https://jeevan-suvarna.netlify.app/>

### **Sorting Algorithm Visualizer -**

- React Application that visually illustrates well know sorting algorithm in action.

Live link: <https://sort-algoviz.netlify.app/>

### **Search Engine using Elastic Search -**

Built a web application as a college final year project to demonstrate use of elastic search using bit of vue and spring boot.
